

MAD SCIENCE: Newton's Revenge – November 4, 2009

Explore the zany side of science in this spectacular live stage show. Join Professor Pruvitt and Crash as they demystify the fundamental Laws of Motion by demonstrating the role of physics in our everyday lives. With a little help from Sir Isaac Newton, our Mad Scientists perform wacky experiments to investigate the principles of inertia, acceleration, actions and reactions.

Grades: 4th – 8th

Pricing: \$6 per student

Curriculum Connections: Scientific Inquiry, Physical Science, Technology, History

Presented by: Brad Simon Group
